BUFFALO

SHAPER/PACKER

The BUFFALO Shaper/Packer is unique. It firms the border, It packs the border. It allows you to cut the alfalfa off the border easily . . . economically with a swather or mower. It's a rugged, dependable finishing tool for borders that allows you to flood irrigate without border caving in or washing away. The BUFFALO Shaper/Packer is available in 3 point hitch and pull type models. Provides adjustable border heights from 6" to 12". Shape and pack with the BUFFALO Shaper/Packer. It takes the problems out of border making. Puts the profits back from proper border shaping.

Replaceable steel runners provide positive control of BUFFALO Border Shaper. Tubular frame design features built in Category 2 3pt. hitch. Add water to the Roller Packer if additional weight is required to firm the border.

SPECIFICATIONS Width 72" Length 112" Height 48" Weight 1130#

THE BUFFALO PACKER features a roller frame of tubular construction. The cone shaped roller itself is a formed material and is equipped with a fill plug for adding water if more weight for packing is desired. Runs on sealed bearings insuring long operating life and minimum maintenance. Available as roller packer attachment only.

Model 80-2 Border Shaper.
